Instructions For Trade Experience Verification Forms

To accompany Journeyman Carpenter, HVAC and Plumber applications.

The purpose of the trade experience verification forms is to provide a method by which a person applying for a Journeyman License with the City of Sheridan may verify their skill level, trade experience and minimum of four years in their respective trade. These forms are not intended to replace the Journeyman level testing for actual licensing. Only one form may be used per employer, so if an applicant has had several employers over the previous four years, the applicant must submit a separate form for each employer.

The following are detailed instructions for each of the items on the form:
